EDUCATION

University of Cincinnati

Cybersecurity

Cincinnati, OH, USA

Aug. 2016 – Dec 2019

Thinkful

Technical Project Management

Remote

November 2020 – February 2021

EXPERIENCE

QA Engineer

Pieces.app

May 2022 – October 2022

Cincinnati, OH, USA

- Decreased time spent on manual software testing by 50%, by writing robust templates and documentation for the QA team
- Ensured over 95% of scheduled releases were published on time, by planning and scheduling testing processes
- Reduced the quantity of QA/developer meetings by 80% by providing comprehensive written documentation and risk assessment using Notion

Developer, Product Owner

Pieces.app

January 2022 – May 2022

Cincinnati, OH, USA

- Grew userbase for our Google Chrome extension by 1,000+ users, by developing features centered around well-articulated user stories
- Ensured all aspects of the release cycle (testing, UI/UX, CI/CD, infrastructure, marketing) were met
- Shipped features faster by providing robust unit and integration test coverage

Growth & Marketing

Pieces.app

January 2022 – May 2022

Cincinnati, OH, USA

- Funneled our target audience to our app by publishing articles, participating in voice-based social media, and engaging with developers on Reddit
- Improved our desktop application by gathering user feedback and creating user stories

Engineering Assistant

Actionstreamer

December 2019 – November 2020

Cincinnati, OH, USA

- Introduced traceability, automatic part replenishment, and quality control into our manufacturing process by implementing and maintaining an ERP system
- Reduced costs related to contractor on-boarding by half, by devising repeatable procedures for our laboratory
- Set up automation for operating system provisioning, saving dozens of hours of labor

PROJECTS

Candid Crypto Podcast | Azure, Wordpress, Monday, Audacity

April 2021 – Present

- Published 20+ podcast episodes geared toward cryptocurrency beginners
- Accrued thousands of listens and over 100 subscribers
- Created educational material in the form of a technical tutorial for publishing Ethereum-based NFTs
